

**1. Horizontal Boring and Milling Machine with DRO, Brand: AMT, Model: AMT1100  
Made in China (Brand New)**

**TECHNICAL SPECIFICATIONS**

Work table surface (L X W)	1100x960 mm
Max. permissible load on table	2500 kg
Across travel X axis	900 mm
Longitudinal travel Z axis	1400 mm without rear column
Spindle dia.	110 mm
Spindle ID type	Standard Morse No. 6# or optional ISO 50#
head stock travel Y axis	900 mm
Max. spindle torque	1225 nm
Max. spindle thrust	12250 N
Power of main motor ( 1450r/min )	7.5 Kw
Spindle travel W axis	600 mm
Range of spindle speed and steps	8-1000 r/min; 22 classes
Max. facing head torque	1960 nm
Facing slide travel U axis	180 mm
Range of facing head speed and steps	4-200 r/min; 18 classes
Rapid speed of spindle, head stock, worktable	2500 mm/min

Max. boring dia by facing head	φ600 mm
--------------------------------	---------

**Standard Accessories:**

- Worktable 4X90° worktable
- DRO
- Rear column
- Face heading plate
- Adjusting pads
- Tool holder for boring and milling
- Operation tools
- Automatic Centralized lubrication system
- Work light
- Manual
