

Electro Hydraulic Pipe Bending Machine

Brand: OMCN: Made in Italy (brand new)

2-Type of operation:

- 1- Manual
- 2- Electro Hydraulic with 2-way distributor hydraulic valve

ELECTROHYDRAULIC PIPE-BENDERS

The motor-driven pipe bending machines "RAPIDT10/M" fitted with silent electro-hydraulic gear box, remote-controlled by a two-way distributor, are practical indeed for the special accuracy with which they have been designed. The gearbox with radiant pistons is complete with a limit valve that enables an automatic oil discharge once the maximum stress has been reached, keeping the working pressure unaltered.

Each one of these models is also fitted with a sturdy two-storey working table. The hydraulic gear box is placed on the lower storey, while the pipe bending machine is placed on the upper storey.

CE approved with electromagnetic compatibility.

1. Technical Specifications: D/M-3", "RAPIDT10/M"

- Maximum Pipe Bending Capacity: from 3/8" to 3" (gas pipes)
- C/W: 9-Formes (dies) for gas pipes of inches
Dies In inch - 3/8, 1/2, 3/4, 1", 1-1/4", 1-1/2", 1-1/2", 2-1/2", 3"
(Dies In mm – 9, 12, 19, 25, 31, 38, 38, 63, 76)

2. Technical Specifications: Art.RAPID T10-G/M"

- Maximum Pipe Bending Capacity: from 2" to 6" (gas pipes)
- Power : 17Ton
- C/W: 6-Formes (Dies) for gas pipes of inches, (2", 2-1/2", 3", 4", 5", 6")
