HSL Guillotine shears Model HSL 3016

Standard Frame HSL3016

HSL shears are cost effective, low maintenance, guillotine shears, specially designed to meet the production requirements of a low-to-medium sheet metal production environment.

HSL guillotine shears are manufactured on production lines in Europe.

They are designed and developed by the R&D department in the headquarters in Belgium and equipped with a ROBOSOFT CNC control.;

ROBOSOFT is the high-tech subsidiary from the HACO GROUP founded in 1985 in Belgium.
