

## 1. Welding Rectifier Brand: OZEN Made In Turkey (brand new)

It ignites all the covered and cellulose, basic electrodes perfectly at the construction sites, outdoors, fill welding, pressured containers, boiler tanks manufacturing, tube lines and heavy industry environments with alloyed and non-alloyed stainless steel, cast iron and aluminum. It is a welding machine of direct current with current adjustment mechanical controlled which can cut with carbon or electrode.

Specifications	DC500	DC360	DC250
Supply Voltage	3*380 V / 50-60 Hz	3*380 V / 50-60 Hz	AC 380 V +/- 15% (50-60) Hz
Max. Primary Current	54 A	31,5 A	18 A
Max. Input Power	36 KVA	21 KVA	12 KVA
Open Circuit Voltage	74 V	51 - 62 V	60 V
Setting Range	50 - 500 A	50 - 350 A	30 - 250 A
Duty Cycle	%60	%35	%60
Welding Current At % 60	500 A	350 A (At %35)	200 A
Welding Current At % 100	400 A	180 A	
Fuse	63 A	40 A	20 A
Isolation Class	H	H	B
Protection Class	IP21	IP21	IP 21
